

# SPRINT EVENT

LET'S HAVE A FULL IMMERSION IN ONE OF  
THE INITIATIVES OF MNO-MINDS

Mobile Network Operator data - Methods  
for Integrating New Data Sources

The project is led by the **Italian National Institute of Statistics** and engages a consortium of **9** other European National Statistical Institutes: **Austria, Germany, Spain, France, Netherlands, Norway, Romania, Sweden and Portugal**

Join us for a two-day **workshop** on the integration of MNO and non-MNO data sources in official statistics.

Take this opportunity to:

- **identify** and **prioritize** non-MNO sources to be integrated with MNO data;
- **learn** about the main principles of our **methodology frame**, share feedback and suggestions;
- **discuss** objectives and **design** of an **ad-hoc survey** to integrate and improve MNO-data statistics.
