EMOS coding lab 2024 edition

"Statistics Explained Through Literate Programming"

Joseph Nyajuoga

Örebro University, Sweden

Overview

- **Goal:** Reproducing Statistics Explained Articles.

- Learning the process of dissemination of Statistics "under the hood".

- Working in Teams - Collaborating with other EMOS Students.

- Created visuals (graphs, maps, ...etc), table summaries to present data insights.

- Written open-source R-Codes, reusable for statistical tasks.

- Presentation of our final results.

Outro…

In God, we trust. All others must bring data.

— W. Edwards Deming
